THE DAY OF YOUR PROCEDURE

- **8 hours prior to the procedure, BEGIN A CLEAR LIQUID DIET. Do not eat any solid foods.** You may consume clear fluids including juice (apple, grape, strained orange, strained lemonade), tea, coffee (no milk or creamer), soft drinks, sports drinks (Gatorade, Powerade), clear broth or bouillon, Jell-O, and popsicles.
- **4 hours prior to your procedure, STOP ALL LIQUIDS This also means NO water other than to take your medications – this is very important. Drinking less than 4 hours before your procedure may result in delay or cancellation of your procedure!**
- Take your usual prescribed medications with small sips of water.
- Dentures will be removed prior to the procedure, please **DO NOT** use denture adhesive.
- Please bring a list of your current medications and correct dosage to your appointment.
- **NO DRIVING** – You may be given a sedative for you tube placement or replacement. If a sedative is administered, **you cannot drive for the remainder of the day.** You need to have a responsible driver to take you home after your procedure. If your driver wishes to discuss the results of your procedure with the doctor, please have them accompany you to your procedure and **remain on site.** We do not recommend Uber, Lyft, or taking a taxi – these are not acceptable forms of transportation post-sedation.
- If you are sedated for your procedure, **please avoid alcohol and making legal decisions for the remainder of the day after your procedure.**

HELPFUL TIPS

- **STOP GLP-1 medications 7 days prior to your procedure**
 - **STOP SGLT2 medications 3 days prior to procedure**
 - Clear liquids only 8 hours prior to your exam – that means no solid food – liquids **only**.
 - PLEASE do not drink water or anything while driving to your appointment or waiting for your appointment – we need your stomach empty to safely use sedation.
 - You may not remember your conversation with your doctor after your procedure – we STRONGLY recommend your driver stays IN our facility to speak with the doctor after your test.
